

Parking – Range of Potential Improvements

- **Convert some prohibited spaces to legal parking**
- **Increase area designated for short-term parking and loading**
- **Adjust meter durations and rates; consider Saturday meter and residential parking permit regulations**
- **Eliminate conflicting parking regulatory signs**
- **Proactively monitor parking regulation and enforcement effectiveness**
- **Explore shared parking opportunities for evenings/weekends (church parking at new retail site)**

Next Steps

- Obtain input from community on suggested transportation improvements (tonight)
- Develop preliminary recommendations for short- and long-term improvements and review with community (September)
- Based on public input, develop final recommendations (late September/early October)
